

Paula R Chesser invites you to...

Join me at my Inaugural
SAVVY WOMEN CLUB EVENT

“What Every Woman Should Know About Investing”

Click here to learn about the [Savvy Women Club](#).

Women have made great strides in the financial sector currently controlling an estimated 27% of the world's wealth. Women are making decisions on how \$20 trillion of the world's wealth is being invested.

Despite gaining more financial independence, 90% of women still feel financially insecure. This is troublesome when compared to the statistic that 90% of women become solely responsible for all household financial decisions at some point in their lives.

Attend my *Savvy Women Club Event* and you will learn:

- Why understanding your financial priorities gives you clarity and direction
- The foundations of investing and how these play a role in your financial life
- Different options and avenues towards planning your future

Friday, January 20, 2012
Portage Country Club - Portage Room
11:30 am - 1:00 pm
Lunch will be served
Gratis Valet available

Membership is exclusive and complimentary to Paula R. Chesser's women Clients.
